

COMMON FORUM on Contaminated Land in Europe

Dietmar MÜLLER-GRABHERR

18 May 2020

TO ALL SPEAKERS:

MANY THANKS!

TO OVAM & 2mpact:

CONGRATS!

REMEDIATION TECHNOLOGIES

- adapting & tailoring existing technologies
- be clear on operating windows (viability; secondary env. effects?)
- embedding to broader management concepts

RESEARCH

- providing evidence
- laboratory performance PFAS: impressive
- importance of system & process understanding

POLICY:

- ✓ BACKGROUND VALUES: (natural) systems & boundaries
- ✓ RULES & RESPONSIBILITIES: institutional arrangements
- ✓ INTEGRATING SCALE ISSUES: site & management areas

CONTAMINANTS OF EMERGING CONCERN

GENERAL REFLECTIONS

- **Risk Management Challenges:** Uncertainty, complexity & ambiguity
- **Knowledge-based societies:** Quick transfer / communication of research findings to embed to practice administrative implementation?
- **Common understanding & language**
 - CoC (Contaminant of Concern), EC, CoEC, SVHC, PMT ...
- **(Common) Policy:** Circular Economy; Green Deal (toxic-free-environment)
- **Institutional arrangements and resources?**
- **CHALLENGE or CRISIS – Who takes leadership?**

ENSOr Workshops

&

EmConSoil

THANKS FOR TAKING INITIATIVE!!
